

# ***Need Help Identifying Employees With 21st Century Skills?***

**Let us serve as your skills assessment center!**

The Yuba County One Stop is pleased to announce that an exciting on-line skills assessment service is now available at no cost to our business clients.

- **Cut your hiring time and costs in half**
- **Assess applicant skills accurately**
- **Customized testing for your business**
- **Assessments done at our office or yours**
- **Speedy results available immediately after testing**

The Olivehurst Public Utility District (OPUD) received over 100 job applications for a single position they had advertised. Faced with the arduous task of trying to sort out the best candidates for the job, they made contact with our One Stop staff.

We were able to setup an assessment process allowing applicants to come into the One Stop and take a series of four assessment tests that were customized to meet the employer's needs. The results of the assessment tests were emailed directly to the employer at the completion of each test and the employer was able to quickly establish a list of qualified applicants to invite to the oral interview process.

*“OPUD wishes to express their gratitude and appreciation to the staff at the [Yuba County One Stop] for their assistance and professionalism in this matter. The services provided were above and beyond our expectations and we hope to continue working with your agency in the future”.*

*Signed/ Cindy Van Meter, District Clerk/Resource Coordinator  
OLIVEHURST PUBLIC UTILITY DISTRICT*
